Revision of data sheets on EPCOS SMT inductors, transponder coils and data line chokes

The data sheets of the EPCOS SMT inductors, transponder coils and data line chokes from the production sites in Szombathely (Hungary) and Heidenheim (Germany) are being revised as follows:

- Measuring equipment and conditions: Complementary information
- Packing: Update of dimension tolerances and internal diameters of the blister tapes and reels (editorial changes)
- SIMID 2220-T (B82442T*): Supplemented component drawing and amendment to the pad layout recommendation
- Power inductors: Add-on the typical values for saturation current and ohmic resistance
