
Change Notification

Process Change Notification #: PCN-000215
Originally Issued: 01/15/2014
R2 Date Issued: **04/05/2014**

Semtech has reissued this PCN due to a typographical error in the copper wire dimensions. Our supplier qualified the 0.8 mil copper wire not the 1.8 mil copper wire originally listed. We apologize for the confusion. All other stipulations and conditions of change still apply.

Semtech Corporation is providing this Change Notification to our customers notifying the qualification of copper wire bonding at our assembly & test supplier. This change affects the following product.

- RClamp0502B.TCT

Semtech's Change Evaluation Team has classified this change as major. Specifically, the supplier Diodes has qualified 0.8 mil copper wire to replace 0.8 mil gold wire. This will result in no change to form, fit, function, and reliability or datasheet specifications. Semtech has completed reliability testing of this part number and it meets Semtech's reliability requirements. Semtech's qualification was completed on Nov 22, 2013. (Ref: Reliability Test Report # 5620).

It is Semtech's intention to fully implement this change to the aforementioned products no later than April 15, 2014 pursuant to the notification guidelines of JEDEC 46. After which; aforementioned products will only be offered with copper wire when existing inventories manufactured with gold wire are depleted. Copper wire samples are currently available.

If you wish to acquire samples, please do not hesitate to contact your local Semtech sales representative. The samples will be available now. If you have any questions regarding our qualification requirements, do not hesitate to give me a call.

Pat Sanchez
Manager, Corporate Quality
200 Flynn Road
Camarillo, CA 93012
